Cooking Safety

A. CHIP PANS AND DEEP-FRYING

- Pay attention to your cooking. Stay in the kitchen when you are cooking.
- If you must leave the kitchen, even for a short period of time, turn off your stove.
- Never fill your cooking pan more than one third full of oil.
- If you deep-fry food, dry it before you put it in the hot oil. If the oil starts to smoke, turn off the heat and leave the pan to cool.
- Do not let children play or leave toys near a fire or heater.

B. COOKING

- The kitchen is probably the most dangerous place in the house.
- Never leave a saucepan on the heat if you get called away.
- Keep the top of the cooker clean.
- Keep the cooker away from curtains and other combustible materials, and clean it out regularly.

C. LPG CYLINDER

Safe use and handling

- After use, turn off the cylinder valve while the appliance is still operating. Then turn off the valve of the gas cooker.
- Check rubber hose regularly for cracks and change hose before expiry date, printed on the hose.
- Strike the match / lighter first then open the burner knob of your gas cooker.
- Always keep the cylinder in vertical position in a well ventilated area.
- In case of leakage, turn off the gas valve, open all doors and windows.
