Mauritius Fire Code

Chapter I

General

1.1.1 Buildings Designated For Conservation
1.1.2 Rapid Transit System
1.1.3 Fire Safety Requirements in Temporary Buildings on Construction Sites
1.1.4 Fire Safety Requirements For Chemical/Hazmat Warehouses
1.1.5 Fire Safety Requirements For Buildings Under Construction
1.1.6 Fire Safety Requirements For General Warehouses
1.1.7 Fire Safety Requirements For Fully Automated Mechanised Car Park (FAMCP)
1.1.8 Notes On The Use Of Intumescent Paints For Protection To Structural Steel Members Of Buildings
1.1.9 Structural Loading of Fire Engine on Accessway
1.1.10 Additional Fire Safety Requirements For High-rise Residential Building
1.1.11 Water Supply Requirements For Fire Fighting
1.1.12 Fire Safety Requirements For Petroleum Service Station
1.1.13 Reduced Water Storage Requirements For Sprinkler Systems in Buildings (for Ordinary Hazard Groups)
1.1.14 Fire Safety Requirements For High Containment Facility (BIO – Safety Level 3/4)
1.1.15 Fire Safety Requirements For Liquefied Petroleum Gas (LPG) Cylinder Installations
1.1.16 Fire Safety Requirements For Laboratories Handling Hazardous Chemicals
1.1.17 Water Supply Requirements For Sprinkler and Wet Riser Systems
1.1.18 Certification of Regulated Fire Safety Products/Materials
1.1.19 Fire Safety Requirements For Temporary Worker’ Quarters in Uncompleted Permanent Buildings on Construction Sites
1.1.20 Fire Safety Requirements For Ductless Jet Fans Systems in Car Parks
1.1.21 Fire Safety Requirements For Determination of Design Fires For Industrial Premises
1.1.22 Fire Safety Requirements For Lift Rescue
1.1.23 Fire Safety Requirements For Persons With Disabilities
1.1.24 Fire Safety Requirements on Using Lifts For Evacuation of Building Occupants During Emergency
1.1.25 Review on Use of Hydrocarbon Refrigerant
1.1.26 Fire Safety Requirements For Mega Underground Developments
1.1.27 Provision of Exit and Directional Signs in Buildings
1.2 Definitions
Chapter 2
Means of Escape

2.1 General
2.2 Determination of Exit Requirements
2.3 Means of Escape Requirements - General
2.4 Residential Occupancy
2.5 Health Care Occupancy
2.6 Office/Shop Factory/Warehouse Occupancy
2.7 Hotels
2.8 Assembly Occupancy
2.9 Workers’ Dormitories
2.10 Exit Lighting and Directional Sign

Chapter 3
Structural Precautions

3.1 General
3.2 Provision of Compartment Walls and Compartment Floors
3.3 Fire Resistance of Elements of Structure
3.4 Tests of Fire Resistance
3.5 External Wall
3.6 Separating Walls
3.7 Compartment Walls and Compartment Floors
3.8 Protected Shafts
3.9 Protection of Openings
3.10 Exit Staircases
3.11 Concealed Spaces
3.12 Fire Stopping
3.13 Restriction of Spread of Flame over Surfaces of Walls and Ceilings
3.14 Roofs
3.15 Materials for Construction

Chapter 4
Site Planning & External Fire Fighting Provision

4.1 General
4.2 Provision for External Access to Buildings for Fire Fighting and Accessibility of Site to Fire Fighting Appliances
4.3 Access to Buildings with Rising Mains
4.4 Private Fire Hydrant

Chapter 5
Electrical Power Supplies

5.1 Installation
5.2 Primary and Secondary Supplies
Chapter 6  Fire Fighting Systems
6.1 Portable Extinguishers
6.2 Rising Main and Hose Reel Systems
6.3 Electrical Fire Alarm System
6.4 Sprinkler Installation
6.5 Fixed Automatic Fire Extinguishing Systems
6.6 Lifts

Chapter 7  Mechanical Ventilation and Smoke Control Systems
7.1 Air-conditioning and Mechanical Ventilation Systems
7.2 Pressurisation for Exit Staircases
7.3 Pressurisation of Internal Corridors in Hotels
7.4 Basement Smoke Control System
7.5 Smoke Control System
7.6 Engineered Smoke Control System
7.7 Auditorium (Cinemas, Theatres etc) Smoke Control System

Chapter 8  Other Systems
8.1 Exit Lighting and Exit Sign
8.2 Voice Communication System and Fire Command Centre

Chapter 9  Fire Safety Report
9.1 Purpose
9.3 Contents Of The Report
9.4 Brief Explanatory Notes for Outline Report on Fire Protection and Life Safety Features
